What is MonClubSportif :

+110K

Since its founding

5X

Less Excel files to
manage (much less
headaches)

10

Less weekly calls from
insecure parents (more
time to plan strategies)

A TON

Less hysterical parents
who are happy to
carpool

2X LESS

coaches to recruit each
season. (Let's be honest,
MonClubSportif makes
you want to coach even
more!)

2 YEARS

This is the average time
that motivated volunteers
stay involved in a sports
organization

MonClubSportif is a **web and mobile application** for managing individual teams and sports organizations (associations, schools, clubs, etc.). It was developed **by and for sports enthusiasts**.

It's a tool that offers a **ton of functionality** with the ultimate goal of **reducing** the time invested by all members involved!

For whom it is intended?

If you are an organized group of members, sports or not, and you are looking to reduce the management time invested daily, this is for you!

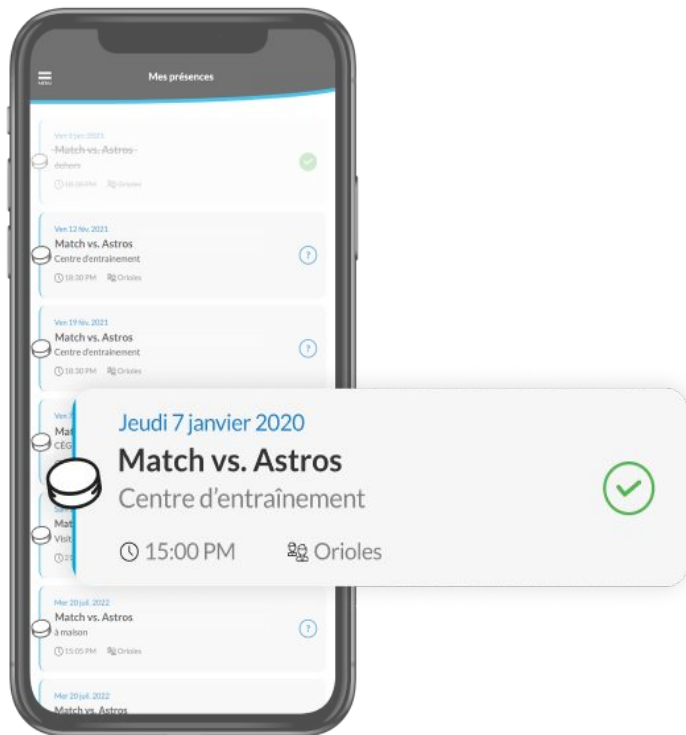

With **MonClubSportif**, you will be able to simplify management tasks like these :

- Communication throughout the organization
- Managing attendance
- Members transfers from one group to another
- Health monitoring of your players

A dark, grayscale image of a football game in progress. In the center, a player in a dark jersey is running with the ball, being tackled by a player in a light-colored jersey with 'ESU' on it. Other players in light-colored jerseys are visible in the background. The text 'Features presentation' is overlaid in white.

Features presentation

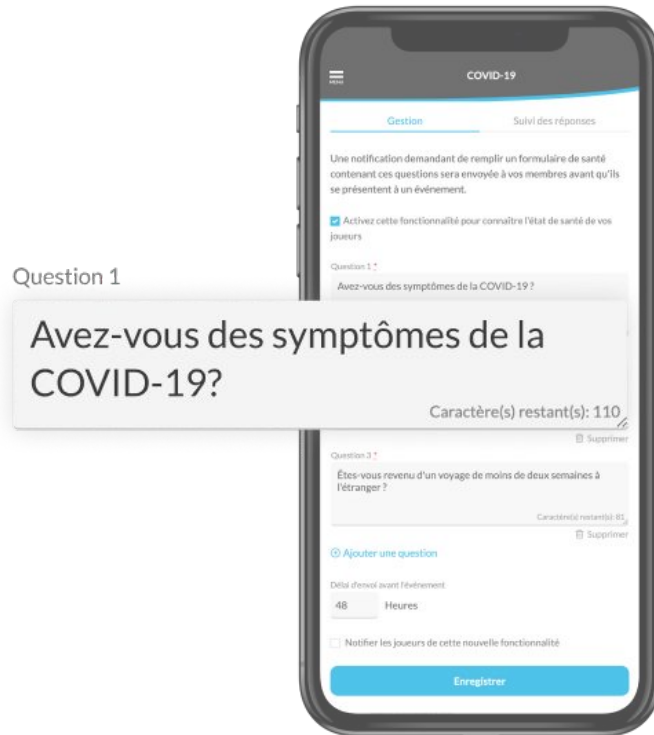

Features

ATTENDANCE MANAGER

Players can confirm their presence at different events **directly in the application**. They can mention the reason of their absence. This feature avoids unpleasant surprises for coaches and gives them the chance to find a replacement **more quickly**.

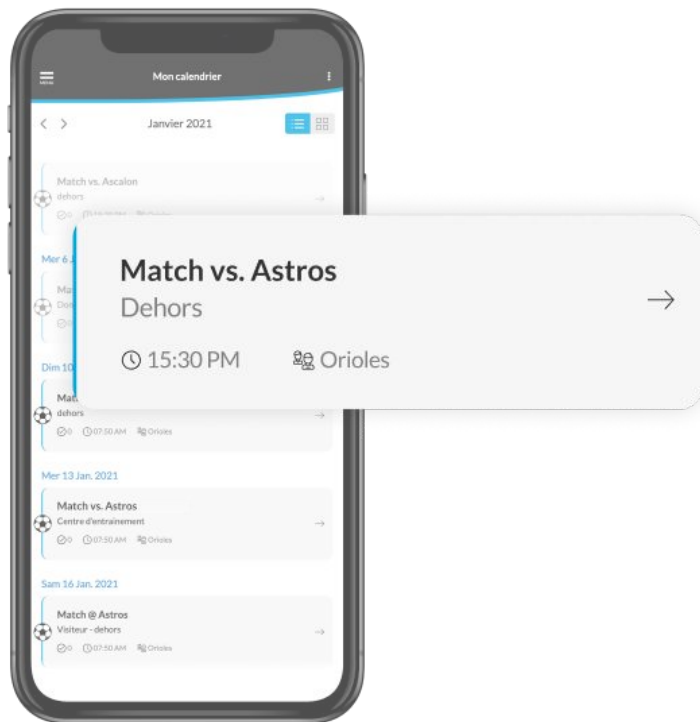

Features

COVID-19 MODULE

The latest addition to the application, the **Covid-19 module**, tracks the health of players. A questionnaire is used to determine whether or not a player can participate in an event. If a player has Covid-19, the coach will be able to quickly notify members by **exporting a list** of players attending the same event as the player.

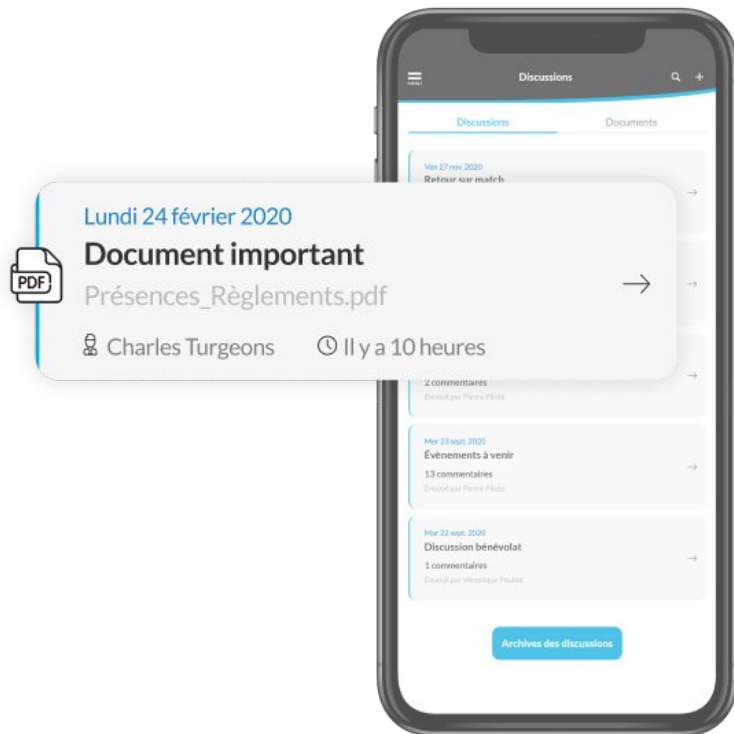

Features

SEASON'S CALENDAR

Members can add the entire season's schedule to their personal calendar. They can also view the calendar directly in the app to see upcoming events. With **automatic reminders** sent to them, they won't miss a game again.

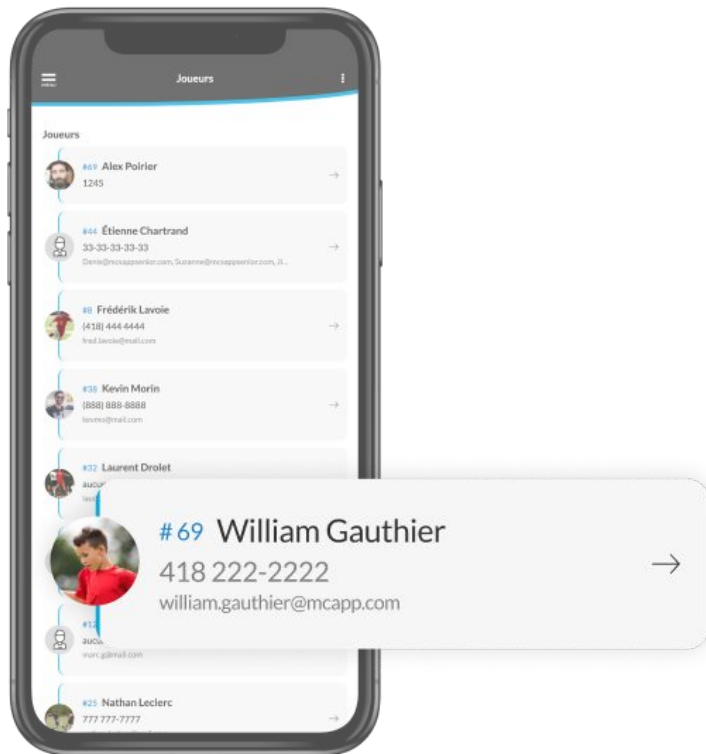

Features

DISCUSSION TAB

The "Discussion" tab allows players, parents and coaches to communicate with each other directly from the software. There is no need to remember everyone's email address. They will find everyone's contact information in the application.

Features

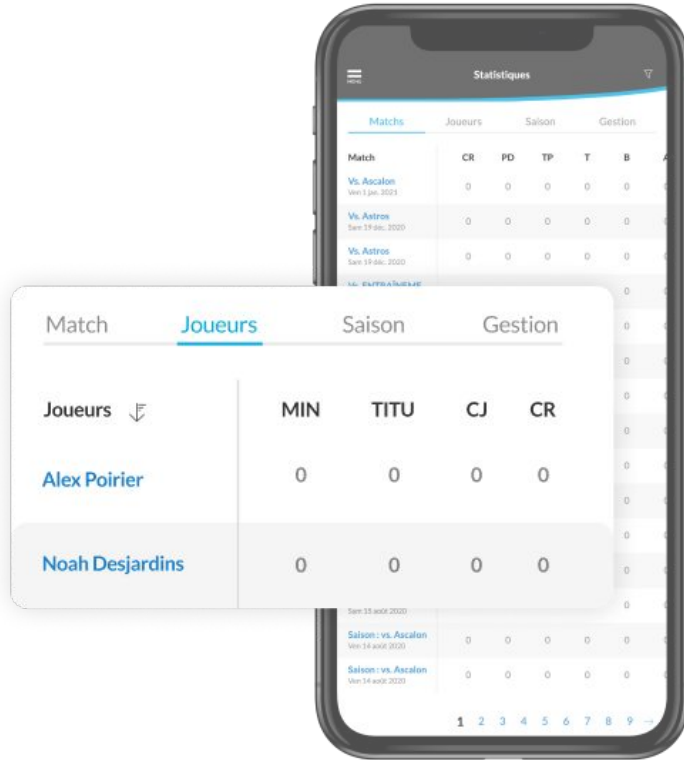

PLAYER'S LOG

Coaches can find all player and parent contact information quickly under the **player's profile**.

This tool allows for quick contact with players, referees and even volunteers when coaches need a last minute replacement.

Features

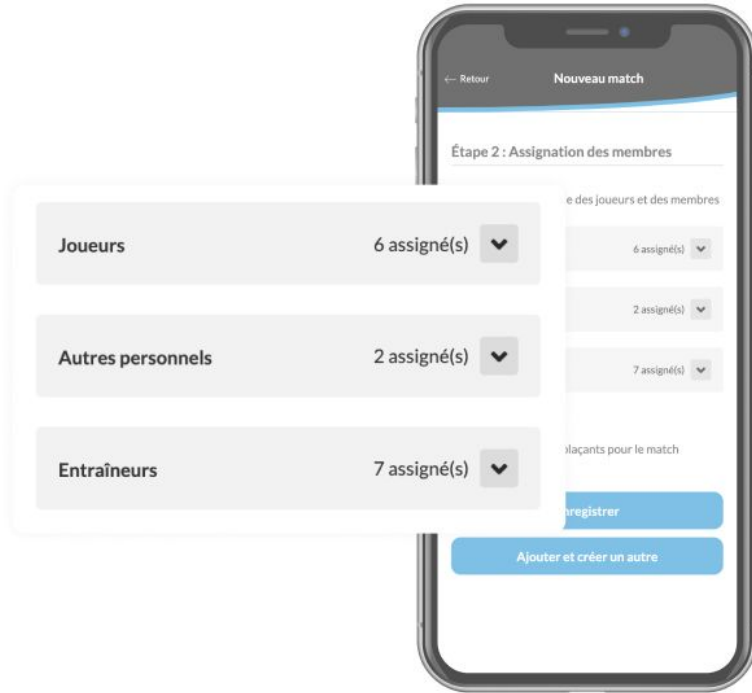

STATISTICS MODULE

View your members' performance and attendance statistics throughout the season. Coaches will be able to reward the players who stood out the most.

Whether it's for their **attendance** or for their **achievement** in the games. This feature also allows players to follow their personal evolution.

Features

PLAYER ASSIGNMENT MODULE

The latest feature allows a coach to **select only a group of players** from a team to **assign to different events**. They can even choose to send out an invitation to reserves to plan ahead in case a player cancels his/her participation!

Features

The application has several features that help its users. Some are for everyone (general) while others are for administrators only (specific).

General features

- Automated reminders
- Overview of your teams: calendars, results, attendance, etc.
- Locations synchronized with Google Maps
- Access to the list of members
- Access to the child's profile shared between parents (allows parents to have access to their child's profile. Thus, they can control the attendance of their child each on their side).

Specific features

- Management of teams from the same organization or from different organizations
- Import of members
- Transfer of players
- Import of games
- Archiving of seasons: players, locations and opponents
- Block attendance changes X hours before an event
- Access to the private section of the members' profile to leave notes
- Billing management

Bonus

Testimonials

Baseball Rosemont

"The implementation of MCS was quick and easy. We have greatly reduced our management time and the feature to notify all members of cancellations is a big plus. We can focus on developing superior programs!"

Arsenal de Chambly

"MonClubSportif helps us with communication and attendance management for events and games for each of our competitive club teams. It is truly an application that helps with organization and communication. BRAVO MON CLUB SPORTIF!"
